

## EOI FOR SETTING UP OF AN R&D SET UP ON RENEWABLE ENERGY IN ASSAM

Proposal is invited from independent institution/organization on or before 12<sup>th</sup> October 2018 for setting up of a dedicated R&D facility in Assam in the field of renewable energy under a project supported by Science & Technology Department, Govt. of Assam.

Institutions/organizations should elaborate on the proposed areas of activities to be taken up in the next 3 years along with strategy for propagation and field testing.

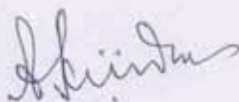

Institutions/organizations should have their own infrastructure in the state of Assam for instituting the facility. Institutes with national and international collaboration in the field of renewable energy particularly in Solar Energy, Bio Energy, Small & Pico hydro energy, wind energy, energy storage as well as new technology will be preferred.

The proposal should reach the undersigned which will be presented before a distinguished panel after preliminary screening. The proposal should be accompanied by budgetary estimates for 3 years with quarterly and annual breakup.

Apart from basic R&D more than 40% of the activities should be related to regional benefit and up scaling regional resource utilization.

Separate intimation would be given to organisations/institutions qualifying after preliminary screening. They would be invited for individual presentation to be made before a distinguished panel for final selection
